Washington vs. Boston.

The fight that has been going on for the last few days between the leading merchants and the prominent citizens of Boston, with the Grant Boston Custom House, is decidedly rich and racy, and withal is quite got enough of the position he was removed. Before hardly any one but a select few, were aware of it, President Grant sent to the Senate for confirmation for that position, the name of William A. Simmons, an internal revenue officer, at Boston-a tool and "right bower" of Benj. F. Butler .-This appointment or rather nomination, was not acceptable to a large majority of the merchants and the like. prominent citizens of the "Hub," as well as to all the delegation in Congress from that State, except "the member from the Essex District," and, perhaps, Senator Boutwell. With all of the active, persistent opposition to the appointment of Simmons, at pres ent writing, it seems that the President is determined to give him the office. So it appears that Benjamin F. Butler is more of a "power" with President Grant than all the leading merchants and citizens of Boston and the Massachusetts Congressional delegation combined. This fact speaks for itself and will have due influence not only in Massachusetts but in all the other States of the Union, that will soon make itself heard. The Republican party is dividing and becoming demoralized and will soon go to decay. Since writing the foreging Simmons is Collector, and there is weeping and gnashing of teeth down by the sea side. Another "disgrace" for the Old Bay State.

-One by one the facts concerning the outrage upon the people of Louisiana, in setting aside the verdict of the people as rendered at the polls and substituting instead of the officers legally chosen, and setting up by force, the Kellogg government,-one by one and little by little the damning facts are coming to light. Durell who issued the infamious order forbidding the Legislature to meet was but a willing tool of a power at Washington-Party politics was at the bot tom of the crime of overturning a State government and the Republican party in that State and in the nation were alone to profit by the usurpation. In the recent election in Texas, Grant was called upon by Davis, the defeated candidate for Government, to aid him in resisting the expressed will of the people of that State-but Grant did not dare repeat the experiment. Even Matt Carpenter Las denounced the Durell proceedings as among the most atrocious outrages against the

It run all that period and nights it would fill up and drop down in my 'hroat, causing a feeling of choaking, so that I would spring up in bed to save myself from strangulation. It affected my head so that I felt confused, and was troubled with severe headache at intervals, for a week at a time. I also had pains in shoulders, back, and kidneys, from which I suffered immense ly. So bad were they, that a year ago last summer I was obliged to lie in bed most of the time for three months. I have tried all kinds of snuff and Catarrh remedies with no

particular benefit and consulted physicians. I had a hacking cough. I began to take the Constitutional Catarrh Remedy last August I began to grow better before finishing the first bettle. Unquestionably the best sustained work of the kind in the World.

Harper's Magazine.

Notices of the Press.

The ever increasing circulation of this excellent monthly proves its continued adapta-tion to popular desires and needs. Indeed, when we think into how many homes it penetrates every month, we must consider it as one of the educators as well as entertainers of the public mind, for its vast podularity has been won by no appeal to stupid prejudices or deprayed tastes—Boston Globe.

The character which this Magazine possesses for variety, enterprise, artistic wen'th, and liverary culture that has kept pace with, if it has not led the times, should cause its conductors to regard it with justifiable com-placency. It also entitles them to a great claim upon the public gratitude. The Maga-zine has done good and not evil all the days of its life,—Brooklyn Eagle.

Harper's Bazar.

Notices of the Press

The Bazar is edited with a contribution of tact and talent that we seldom find in any fact and talent that we seldom and in any journal; and the journal itself is the organ of the great world of fashion.—Boston Traveller.

The Bazar commends itself to every member of the household—to the children by droll and pretty pictures, to the young ladies by its tashion-plates in endless variety, to the provident matron by its patterns for the children's clothes, to pateriamilias by its tasteful designs for embroidered slippers and luxurious dressing-gowns. But the reading-matter of the Bazar is uniformly of great excellence. The paper has acquired a wide popularity for the fireside enjoyment it affords.
